Objectives

- This website is primarily made for students. Students, who are in Higher Secondary can browse to our website and checkout career options of their interest.
- Also, they can browse through all the institutes and degree information from one website.
- Foster interaction and engagement among students, alumni, and administrators.
- Here, Student can buy mock tests and prepare for their entrance exam.

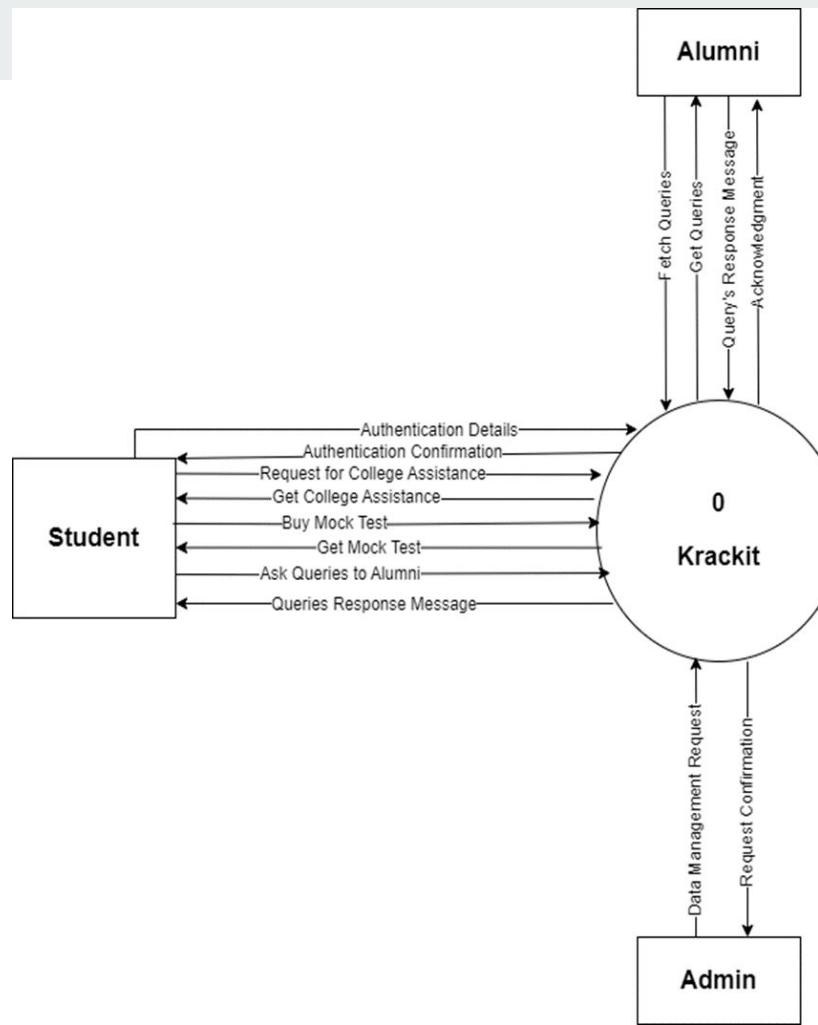

Milestones

- **Project Planning:**
 - Define project objectives, scope, and requirements.
 - Assign roles and responsibilities to team members.
 - Set up communication channels and project management tools.
- **Development Phase:**
 - Developed Database
 - Design and develop the frontend and backend of the website.
 - Conduct testing to ensure functionality and usability.
- **Content Creation:**
 - Gather and create content for the website, including text, images, and multimedia.
 - Ensure content aligns with project objectives and target audience.

Career Counselling

Your Query:

Testing!

Your Answer:

Testing Successful!

Reply Forward

Lessons and Takeaways

- Teamwork using Taiga:
 - Effective communication and leveraging individual strengths.
- Problem-Solving:
 - Adaptability and creative solutions.
- Time Management:
 - Prioritization and meeting deadlines.
- Continuous Improvement:
 - Feedback incorporation and skill enhancement.

Achievements

- Successful Completion:
 - Developed a fully functional website meeting project requirements.
- Effective Collaboration:
 - Demonstrated strong teamwork and coordination among team members.
- Valuable Experience:
 - Gained valuable skills and experience in web development through project execution.

Mistakes

- Project Scope Management:
 - Overextending project scope, leading to resource allocation challenges and timeline delays.
- Unorganized source control:
 - Underestimating the importance of git for source control and faced challenges doing it manually.
- Insufficient Testing:
 - Lack of comprehensive testing leading to discovery of few bugs later.
